25X1X 1. The SCHWERIN GOERRIES (M 54/T 46) airfield was not occupied by a Soviet Air Force unit on 17 June 1949. According to local residents, a biplane frequently landed at the field. A Soviet artillery unit of about two hundred men was quartered in the undamaged buildings on the northern field border.

25X1X 2. The northern sector of the landing field of the SCHWERIN-GOERRIES airfield was surrounded by a board fence on 23 June 1949. About 150 Soviet soldiers wearing red-bordered, black epaulets were quartered in the buildings behind this fence. The road from GOERRIES to the airfield was blocked by a barrier. Two soldiers were tending a herd of cattle and horses on the southern section of the landing field. All airfield buildings outside the fenced-in area were stripped. The RR spur track was intact. No indications concerning an intended reoccupation of the airfield were observed.

25X1A 3. Comment:

The occupation by an army unit of the buildings on the northern field border is known from previous reports. According to previous information, no indications concerning a reoccupation of the field by an air unit were observed.
